## WHY THIS BOOK?

Over the years I have found out that we are not the only ones who like to express our love for Liverpool through ink. Many of our friends from all over the globe have amazing Liverpool tattoos and we love to talk about them all the time. Some tattoos are more creative or symbolic, while others have a more simple design or are straight to the point.

When I came up with the idea to combine all these tattoos and stories in a book, I actually thought it would already exist! I mean, if we all love our Liverpool related tattoos so much, it must have crossed someone else's mind already, right? But when I looked into it, I found out that it actually had never been done before. So I asked around to see what you, other LFC fans, thought of the idea and the response was overwhelmingly positive! Not only did you think it was a great idea, you also wanted to help straight away, gathering those beautiful pictures and stories! Our Red hearts spoke again! Within three months I received over 75 stories from India to Scotland, from Finland to New Zealand, from England to South Africa and from The Netherlands to the USA! Personal stories told through your tattoos. Personal stories from men and women between the ages of 21 and 60 that you were all willing to share with your Liverpool Family.

I am convinced that this book will give you all goosebumps as it truly is an emotional rollercoaster of stories from around the world. And I also believe and hope that this book will help us all respecting different cultures and backgrounds more and more as the stories in my book prove that no matter where you were born or how your life turns out, when you deeply share a love and passion, like we all do for Liverpool FC, there are no frontiers.

I hope you enjoy reading it, just as much as I loved putting it together for you all! Thank you from the bottom of my heart to everyone who has helped making this book become reality!

## WHO IS KIM OLT Hof?

My name is Kim Olthof and I am a 42-year old Liverpool fan from The Netherlands. I started supporting the Reds when I was about nine. Not because my family supported Liverpool or because they were successful in Europe those days, but simply because of a feeling. Whenever I saw them play (I watched a lot of football with my dad at the time), they just had to win and I would get quite upset if they didn't. It was a feeling I couldn't describe. Guess it was something like having a crush. Only I fell in love with a football club instead of a boy.

Throughout my life I kept following Liverpool whenever and wherever I could and my crush turned into real love. A love that would and will be there for eternity and that I am now thankfully sharing with the other love of my life, my partner Dirk, and with my many great friends all over the world whom I've met throughout the years at local & international events and in Liverpool.

Our life now consists of Liverpool FC, our dogs and... tattoos! We both had a Liverpool tattoo when we met, but ever since we have been together the desire to combine our passions has grown more and more each day as we found out that we can both express our deepest emotions best through our tattoos. In total we now share eight Liverpool related tattoos between us and we wear them with proud.
